

# Tens and Ones with Snap Cubes

**Materials:** snap cubes, numeral cards (11-19)

---

1. Work with a partner. Take turns to turn over a numeral card and model the number using a stick of 10 and single snap cubes.
2. Describe the number to your partner.

My number is \_\_\_\_.  
\_\_\_\_ = 10 + \_\_\_\_.

3. Represent the number by drawing the snap cubes and writing an equation.
4. Repeat with other numeral cards.

14

$$14 = 10 + 4$$
